Releases

While Senate Debates AI ME, Iran Keeps Killing and Wounding Americans

The Drafting of Military Force. It is no surprise that Leader McConnell and the other Administration would rather debate the history of the Iraq War than grapple with their current and foreign policy failures. But the Iraq War has already set the deadly precedent for the use of force in Iraq and Syria from the ground up.

The Iraq War has been a disaster for the United States and the world. It has cost lives and billions of dollars. It has also led to the deaths of thousands of innocent people. The Iraq War has also led to the deaths of thousands of innocent people. The Iraq War has also led to the deaths of thousands of innocent people.

While Senate Debates AMU, Iran Keeps Killing and Wounding Americans

Tehran wants to push us out of Iraq and Syria. Why should Congress make that matter? While the Senate has been engaged in this debate, there's also debate about rolling back American power, Iran has continued its missile attack program. Just last week a suspected Iranian attack killed one American and wounded six more in Syria. Some in America may think our aim against terrorism is defeating Iraq, but clearly the Senate has not agreed.
